

ABN 65 078 938 262

1st September 2009

To whom it may concern,

Recently Frieberg Australia undertook the workstation component for one of our sites in Carnarvon. Frieberg was able to deliver the project within the restrictive timeframes which were set and overcome the logistical challenges faced when undertaking regional works.

The staff of Frieberg were able to work closely with Perth based architect to ensure that the required specifications and details were all in hand before delivering to site.

Frieberg, much to their credit delivered this job defect free and on time.

Scope Interiors regularly use Frieberg and would recommend them to any contractor or client assessing future works.

Please feel free to contact the undersigned to confirm these details
